

Damp Lime Spreaders

Contact: Cody Waltemire

Office: 814-310-3282 Cell: 814-977-1786

Used to spread damp lime and poultry litter. All spreaders are PTO driven with calibrations set to apply damp lime from one ton per acre to two tons per acre.

Available Equipment:

1—Five ton spreaders

2—Eight ton spreaders

Rates:

\$3.50 per ton—lime

\$5.00 per ton—poultry manure

Proof of a manure management plan is required if spreading poultry manure with spreader.

A \$150 clean-up fee will be charged for spreaders returned with poultry manure residue.

The fee will be waived if the spreader is properly cleaned and power washed.

All Equipment Subject to Availability

No-till planting and lime spreading equipment is available to rent to county farmers. Services provided with this equipment include delivery and set up, maintenance, and operating instructions. We also can arrange soil and manure testing, pH testing, nutrient management planning and residue management recommendations.

No-Till Corn Planters

Contact: Cody Waltemire
Office: 814-310-3282 Cell: 814-977-1786

There are four John Deere four row planters set up to plant 30 inch or 36 inch rows. No tillage is required to plant with these machines. Sorghum and soybean seed cup attachments are available as well as row cleaners, dry and liquid fertilizer bins, and insecticide boxes.

Available Equipment:

1—John Deere (Model 1750) planters equipped to plant 36 inch rows with dry fertilizer; equipped with row cleaners.

1—John Deere (Model 1750) planter equipped to plant 30 inch rows with liquid fertilizer; with row cleaners.

2—John Deere (Model 1750) planters equipped to plant 30 inch rows with dry fertilizer; both have row cleaners.

Rates:

< 15 acres—\$16.00 per acre

> 15 acres—\$13.00 per acre

No-Till Corn Planters

Contact: Cody Waltemire
Office: 814-310-3282 Cell: 814-977-1786

The Bedford County Conservation District rents two 6-row no-till corn planters.

Available Equipment:

2—Pequea Plant Master 612 six row corn planter.

The planter is equipped with both liquid in-row (pop-up) fertilizer, liquid side dress nitrogen tanks, row cleaners and foam markers. Marker solution will be provided by the Conservation District.

Requirements:

A minimum 80 horsepower tractor will be necessary to use the planter.

All renters will be asked to sign a user agreement when the planter is delivered.

Rates:

\$15.00 per acre

\$30.00 delivery and set-up

Minimum charge of \$400

Due to possible high demand, there may be an additional per day charge added if the planter is not in use.
